

**Research notes.**

- Manuscripts are to be organized in the following sequence: research notes have a running head, and “Research note” at the beginning of the first page. Immediately after, provide the title of the note in bold type, names of authors and addresses as described for regular articles, indicating the corresponding author. Notes must include an abstract and key words (both with Spanish version).
- The text is written without sections and without extra spacing between paragraphs.
- Acknowledgements may be given, without heading, as the last paragraph.
- Literature cited, tables, and figures should follow the same format as articles.

**Front cover illustration.** Authors are invited to send pictures that are related with their manuscript, in order to participate in the front cover illustration selection process.

**ERRATUM**

**Distribución geográfica y ecológica de *Ipomoea* L. (Convolvulaceae) en el estado de Michoacán, México”, publicado en la Revista Mexicana de Biodiversidad 2012, 83 (3):731-741.**

Texto correcto:

**Figura 1.** Ejemplos de la diversidad floral de *Ipomoea* en Michoacán. A, *I. gloverae* una de las 2 especies endémicas de Michoacán; B, *I. barbatisepala*; C, *I. tacambarensis*; D, *I. crinicalyx*; E, *I. alba*; F, *I. neei*; G, *I. dumosa*; H, *I. bracteata*; I, *I. lobata*; J, *I. minutiflora*; K, *I. funis*; L, *I. hederifolia*. Escala= 1 cm.
