

Special issue:

*Conservation and Sustainable Management of Belowground Biodiversity
in Kenyan Agroecosystems*

This publication presents part of the findings of the international project “Conservation and Sustainable Management of Below-Ground Biodiversity” implemented in seven tropical countries—Brazil, Cote d’Ivoire, India, Indonesia, Kenya, Mexico, and Uganda. The project is coordinated by the Tropical Soil Biology and Fertility Institute of CIAT (TSBF-CIAT) with co-financing from the Global Environmental Facility (GEF), and implementation support from the United Nations Environment Programme (UNEP).

The views expressed in various articles in this publication are those of their authors and do not necessary reflect those of the authors’ organizations, The United Nations Environment Programme or the Global Environment Facility.

The designation of geographical entities in this book, and the presentation of the material herein, do not imply the expression of any opinion whatsoever on the part of the publisher or the participating organizations concerning the legal status of any country, territorial area, or its authorities, or concerning the determination of its frontiers or boundaries.
